Relicus is an innovative startup founded by a group of passionate psychology students with a shared vision to transform the landscape of mental wellness. Rooted in scientific knowledge and driven by empathy, the initiative seeks to bridge the gap between traditional therapeutic practices and modern technological solutions, making mental health support more accessible, personalized, and engaging. By combining creativity, research-based strategies, and a deep understanding of human behavior, Relicus aspires to empower individuals, foster resilience, and create a positive impact on society through holistic and cutting-edge approaches to psychological well-being.
